

SystemST Featured On Cars at Top Marques Supercar Show in Monaco

Two OE car manufacturers displayed cars fitted with Surface Transforms plc's **SystemST** ceramic brakes at the Top Marques Supercar show in Monaco between 19th and 22nd April 2007.

Koenigsegg CCX in the main hall at the Grimaldi Forum

Koenigsegg Automotive displayed a CCX model in the main exhibition hall, whilst a second CCX example was available for test-drives around the sanctioned route around the Monaco harbour. Both vehicles were fitted with **SystemST** ceramic brakes.

Weber Sportcars of Switzerland used the Top Marques show to unveil their super sports car. Designed and built by Formula 1 engineers, the car is capable of 250 mph and can go from 0 – 60 mph in just 2.5 seconds. The 900 bhp vehicle is fitted with 380 mm diameter **SystemST** ceramic brake discs gripped by 12-piston brake calipers front and rear.
